Walv Engin.

Electrical World

A Review of Current Progress in Electricity and Its Practical Applications

Volume LXXXV

January 3 to June 27, 1925

McGRAW-HILL COMPANY, INC.
Tenth Avenue and Thirty-sixth Street, New York City

GENERAL INDEX

Entries from the Digest of Current Electrical Literature are indicated by (D) Digest

PAGES BY ISSUES

January 3	1	to	82
January 10	83	to	132
January 17	133	to	184
January 24	185	to	234
January 31	235	to	284
February 7	285	to	336
February 14	337	to	386
February 21	387	to	442
February 28	443	to	494
March 7	495	to	546
March 14	547	to	598
March 21	599	to	650
March 28	651	to	700
April 4	701	to	752
April 11	753	to	804
April 18	805	to	856
April 25	857	to	908
May 2	909	to	960
May 9	961	to	1010
May 16	1011	to	1062
May 23	1063	to	1112
May 30	1113	to	1162
June 6	1163	to	1248
June 13	1249	to	1298
June 20	1299	to	1380
June 27	1381	to	1434

A

Accident prevention:
——Aids to service continuity, safety and economy of operation, 1403.
——Cable fireproofing, fire resistance of, *671.
——Contest, two companies compete in safety (J. E. Jordan), *982.
——Crossings over railways, clearances of (W. C. Wagner and J. B. Straw), *1266.
——Fire Protection Association's annual meetings, National, 994, 1039.
——Flatirons, safeguarding, *157.
——Grounding device reduces hazards to workmen (A. G. Carson), *1223.
——Metropolitan section, N. E. L. A., safety rally, *1282.
——National Safety Council to review foreign-made articles, 70.
——Switzerland, on electric lines in (D), 987.
——Test room designed for safety, high-voltage, *1406.
Accounting (See also Billing):
——Service as an executive aid (Charles L. Edgar), *1073.
——Science, a militant, 1273.
Adams, Edward D., dinner to, 630, 835.
Administration (See Management):
Advertising (See also Public Relations):
——Boston, Edison Electric Illg. Co. Eclipse, capitalizing the, *319.
——Central-station industry should advertise itself (editorial comment), 285.
——Chamber of Commerce of the United States studies, 1101.
——Manchester (N. H.) Company's, *1226.
Advertising (See also Public Relations) (Cont.):
——Michigan Electric Light Association's, Contest, *1230.
——Narragansett Electric Lighting Company's, *623, *1409.
——Public Utilities, Association convention, 1044.
——Savannah (Georgia) Electric & Power Company's, *1087.
——Stock sales and (Charles Heston Peirson), 1128.
——Street-lighting equipment, new, *725.
——Union Light & Power Company, Franklin, Mass., *521.
——Utility, continuous (J. Charles Jordan), *865.
Africa:
——Rand, electric power on the (D), 263.
——South African railways, electric locomotives for (D), 1140.
Air breakers, (see Circuit breakers).
——Transmission lines, for inspection of (E. Knüpfer), D, 727.
Alabama:
——Power Company:
Coosa River plant, 1360.
"Forbes' Magazine" prize, wins, 1281.
Mobile Electric Company, buys, 264.
Pensacola (Fla.) Electric to affiliate with, 419.
Properties, takes over new, 1240.
Turbines, orders three, 1277.
——Rural electrification, 1213.
——Rural line costs and revenue, 254.
Alarms. (See Signals):
Alternators:
——Electrostatic, theory of a simple (Alfred W. Simon) D, 1089.
——Parallel running of (Julius Frith and F. Buckingham).
——Parallel running of (G. Windred) D, 1036.
——Synchronous operation of two, through unsymmetrical impedances (S. Bekku) D, 262.
Aluminum, electrolytic refining of (Francis C. Frary), D, 1275.
American Association for the Advancement of Science, annual meeting, 60.
American Association of Engineers elects officers, 1416.
American Electrochemical Society meetings, 940.
American Engineering Council:
——Cabinet reorganization, for, 214.
——Water resources, takes up, 1043.
American Gas & Electric Company:
——Appalachian Securities Corporation merge, 419.
——Growth, *473.
American Institute of Electrical Engineers:
——Communication, committee on, 393.
——Constitutional changes in contemplation, 166.
——Convention,
Annual, at Saratoga Springs, 1043, 1280, 1413.
Midwinter, 166, 313, *33, 391, editorial comment, 387.
Spring, at St. Louis, 580, 833, *861; editorial comments, 703, 857.
——Electrophysics, committee on, 391.
——Hydro-electric power development, papers on (D), 469.
——Instruments and measurements, committee on, 394.
——Machinery, committee on electrical, 391, 393.
——Meetings, annual, 990, 1094, editorial comment, 1113.
——Nominations, directors', 628.
American Inst. of Electrical Engineers (Cont.):
——Northeastern (First) District convention, 784, 941, 1042, 1070.
——Officers, election of, 1091.
——Power transmission and distribution, committee on, 392.
——President, nominations for, *118, *163, *265, 628.
——Prizes, award of, 1280.
——Pupin to head, *265.
——Railway electrification discussed, 990, editorial comments, 1113, 1301.
——Robinson, Lewis T., nominated for president, *163.
——Schuchardt nominated for president, *118.
——Standard secti ns approved, 315.
——Standards, four more drafts ready, 632.
——Washington meeting, Hoover addresses, 166, 269.
American Physical Society meeting, 117, 940.
American Society for Testing Materials, Editorial comment,, 961.
——Meeting, annual, 1043, 1414.
American Society of Agricultural Engineers, annual meeting, 1229.
American Society of Mechanical Engineers:
——Meeting, Chicago, 162.
——Meeting, spring, 994, 1092, 1143.
——Pacific coast regional meeting, 1416.
American Superpower Corporation's prize contest, 631, 1095, editorial comment, 599.
American Welding Society's annual meeting, 938.
Ampere-trough experiment (Grover, Das and Turnbull) D, *1356.
Amphioxus, competition for the (editorial comment), 703.
Annunciators (see under Signals):
Appliances (see also Commercial activities and Manufacturing and Markets):
Arc welding (see Welding):
Arizona:
——Colorado River Compact, rejects, 577.
——Colorado River plan, 679.
——Colorado River treaty, 783.
Arkansas:
——Light & Power Company's Remmel Dam, *270.
Arresters (see Lightning arresters):
Associated Manufacturers of Electrical Supplies, annual convention, 1279, 1360, 1367.
Association of Electragists International (see Electragists):
Associations and societies:
——Committee work, good citizenship and (editorial comment), 84.
——Convention papers, the use of (editorial comment), 805.
——Directory of electrical, 76.
——News of, weekly, 63, *118, 167, 218, 270, 318, 370, 424, 478, 530, 582, 633, 684, 734, 789, 839, 894, 942, 995, 1045, 1097, 1147, 1231, 1282, 1363, 1419.
Atmospherics (R. L. Smith-Rose) D, 416.
Austria:
——Lightning trouble (R. W. Pruesser), 204.
——Three-phase high-tension line (R. Grann) D, 1139.
——Water power development, 456.
Auxiliaries (see Generating stations).

B

Barometer of electrical business (see Business):
Batteries, storage:
——Charging equipment for electric trucks (F. A. Westbrook), *1083.
——Electrolytes (G. W. Vinal and G. N. Schramm) D, 626.

*Indicates illustrated articles

Batteries, Storage (Cont.):
——Separators, (C. L. Snyder) D, 626.
——Solutions in (D), 417.
——Telephone central stations, current supply for small (B. Sternberg) D, 573.
Belgium, electrical demand growing, 1127.
Billing:
——Bills, without, *468.
——Delinquent accounts, checking up, *1035.
Boats (see ships):
Boiler room (see also Boilers):
——Air preheaters (C. W. E. Clarke) D, 830.
——Air preheating, progress of, 352.
——Brick with special reference to its use in coal-fired boiler settings (R. F. Geller) D, 1139.
——Evaporative tests at River Rouge (D), 1036.
——Heat balance control, automatic (W. A. Kates), *1025.
——Heat, balancing (John Bruce) D, 625.
——Instruments easily readable, making, 258.
Boilers, steam (see also Boiler room):
——Economy, increasing (Harry K. Blanning) D, 212.
——Feed-water:
Pump explanations and calculations (Charles L. Hubbard), D, 109.
Pumps, selecting (C. L. Hubbard) D, 212.
Purification of, containing oil (C. E. Joos) D, 262.
——Priming of steam, factors affecting (C. E. Joos) D, 1089.
——Thermometer stem correction (E. L. Karkau) 878.
——Tops, floodlighting (F. Shanks), 303.
Boilers, electric steam:
——(Otto Stalhane) D, 110.
——Automatically controlled (W. S. Guthrie), *568.
——Hat industry, used in (A. S. Goorin), 1267.
Boilers, mercury, Hartford company's experience, 365.
Bolts and set screws, removing defective (Howard Davies), 1135.
Bonbright & Company's prize contest, 631, 1095, *1358, Prize winning paper (David Cowan), *1391, editorial comment, 599.
Book reviews. (See also Books received.)
——Alternating-current rectification (L. B. W. Jolley), 574.
——Cables, electric (William A. Del Mar), 111.
——Circuit troubles and testing (Terrell Croft), 362.
——Clutches, friction (R. Waring-Brown, 362.
——Coal, industrial-purchase, storage and delivery (American Engineering Council), 111.
——Copper, metallurgy of (H. O. Hofman and Carle R. Hayward), 111.
——Costs and charges, electricity supply (H. M. Sayers), 362.
——Direct-current machines, connecting and testing (F. A. Annett and A. C. Roe), 780.
——Dynamo-electric machinery (Erich Hausman), 111.
——Electrical circuits and machinery, Vol. II. Alternating currents (John H. Morecroft and F. W. Nehre), 574.
——Elektrizitätswerke, Bau Grosser (G. Klingenberg), 780.
——Elektrotechnik-Starkstrom Ausgabe, Hilfsbuch für Die (Dr. Karl Strecker), 988.
——Elettromiccaniche, Costruzioni (E. Morelli), 780.
——Engineering, electrical (L. A. Hazeltine), 111.
——Engineering, elements of electrical (A. L. Cook), 574.
——Fahrleitungsanlagen für Elektrische Bahnen (Fr. W. Jacobs), 1276.
——Gauges and measuring appliances, workshop (Louis Burn), 362.
——Hyperbolic functions to electrical engineering problems, applictaion of (A. E. Kennelly), 1276.
——Industrial electricity (William H. Timbie), 574.
——Ions, electrons and ionizing radiations (James A. Crowther), 780.
——Kelvin Centenary orators and addresses, 111.
——Magnets (Charles R. Underhill), 362.
——Maschinen, Elektrische, Volume I (Rudolf Richter), 988.
——Maschinenkunde und Elektrotechnik, Aufgaben Aus Der (Fritz Suchting), 362.
——Mathematik, Höhere (Dr. R. Rothe), 988.
——Measuring instruments, electrical (C. V. Drysdale and A. C. Jolley), 780.
——Mechanical World year book for 1925, p. 362.
——Mechanics, technical (E. R. Maurer and R. J. Roark), 574.
——Mesures Télégraphiques et Téléphoniques (Georges Valensi), 362.
——Metallography, chemistry and physics of the metals and their alloys (G. Tammann), 780.
——Motors, reconnecting induction (A. M. Dudley), 574.
——Patents, invention and method (H. E. Potts), 1276.
——Physik in Graphischen Darstellungen (Felix Auerbach), 988.
——Pressurs, production and measurement of low (F. H. Newman), 780.
——Problèmes o'Electrotechnique (A. Curchoo), 988.
——Raumheizung, Handbuch der Elektrischen (W. Heepke), 988.
——Rectifier, electrolytic (N. A. de Bruyne), 574.
——Refrigeration, household (H. B. Hull), 988.
Book reviews. (See also Books received) (Cont.):
——Relativity, Einstein's theory of (Max Born), 988.
——Schüttel-Schwingungen (A. Wichert), 362.
——Science in industry, profitable (Farnham, Hall, King and Howe), 780.
——Soudure Electrique à l'Arc Metallique, la (S. Frimandeau), 574.
——Steinmetz, Charles Proteus (J. W. Hammond), 111.
——Superheat engineering data (Superheater Company), 1276.
——Superpower (L. T. Beman), 574.
——Technical papers, composition of (H. A. Watt and P. B. McDonald), 780.
——Telephone communication (C. A. Wright and A. F. Puchstein), 1276.
——Telephony, an outline of automatic (William Aitken), 780.
——Telephony, principles of transmission in (M. P. Weinbach), 988.
——Telephony, Strowger system of automatic (H. H. Harrison), 780.
——Transmission lines, electrical design of overhead power (W. T. Taylor and R. E. Neali), 988.
——Transmission lines, mechanical design of overhead electrical (E. G. Painton), 1276.
——Welding and cutting metal, arc (General Electric Co.), 362.
——Welding handbook, arc (C. J. Holslag), 362.
Books received, 111, 362, 574, 780, 988, 1276.
Boring holes in solid rock, *353.
Boston (see Massachusetts):
Brick plant, synchronous motor drive in (R. H. Triem), *1137.
Brooklyn, (see New York City):
Brown-Boveri enters American market, 264, 364, correction (J. H. Mull), 460.
Bump, Milan R., death of, *989, editotrial comment, 961.
Bureau of Standards (see Standards):
Busbars:
——Standard, British (D), 1139.
——Supports during short circuits, mechanical stresses in (O. R. Schurig and M. F. Sayre), D, 1089.
Business (see also Manufacturing and Markets:
——Barometer of electrical, November 1924, *96, December 1924, *242, January 1925, *606, February, *874, March and April, *1127, May, *1400.
——Government and (Wigginton E. Creed), *1169.
——Outlook and the electrical industry, general (editorial comment), 701.
——West, in the (Allan Sproul), *1217.
Buying, the true test of good (editorial comment), 547.
Bylleby & Co., H. M.:
——Duquesne Light Company, acquire, 61, 1413.
——Group in good position to grow (Paul Willard Garrett), *955.
——Growth in 1924, p. 475.

C

Cables:
——Acid-proof (O. Bodemann), D, 1274.
——Aërial, versus open wiring, 205.
——Choosing wires and, method of, 1268.
——Compensated three-phase (D), 522.
——Copper, hard-drawn (D), 158.
——Current rating of single-conductor, lead-covered, low-tension, on single-phase alternating-current circuits (S. W. Melsom and W. E. Beer) D, 1274.
——Dielectric losses in cables, (R. W. Atkinson) D, 885, *1265.
——Fireproofing, 567, *671.
——High-tension (Llewellyn B. Atkin) D, 311.
——High-voltage, 305, (D), 677.
——Insulation (editorial comment), 497.
——Insulation, protecting, *411.
——Joint failures and observations, peculiar (D. D. Clarke), *773.
——Joint, solderless (E. Dusaugey) D, 1356.
——Joints, study of high-tension, by A. I. E. E., 1070.
——Montreal company plans 60,000-volt, 992.
——N. E. L. A. joints, modified (D. D. Clarke), *1269.
——N. E. L. A. report on underground systems, *1313.
——New York Edison's 132,000-volt, 1359.
——Oceanic, transmission studied in a laboratory, 1255.
——Pirelli, the new 130,000-volt (Philip Torchio), *603.
——Pulling tensions (Will G. Kelley), *1015.
——Single-core armored, for alternating currents (G. M. Harvey and A. H. W. Busby) D, 1139.
——Single-core lead-covered and armored, for alternating currents (W. Cramp) D, 1139.
——Single versus multiple conductor, 254.
——Standardization in Holland (W. F. Gebhard) D, 158.
——Steel-aluminum, for high-voltage lines (W. Nobel) D, 212.
——Submarine, study of various insulating materials for (D), 728.
——Temperature detector for (H. B. Dwight), 506.
——Testing:
High-tension (E. S. Lee), comment (D. W. Roper), *397.
——33,000-volt aërial, without armoring, 824.
——Three-phase (R. Dieterle) D, 311, 360.
Cables (Cont.):
——Tractor and trailer used in handling, *723.
——Transatlantic, loaded (editorial comment), 963.
——Unarmored, installations in Italy (Guido Peri), 668.
——Underground:
Vaults on, locating, *355.
Cadmium in the electrical industry (M. F. Budgen) D, 886.
Calculating board system (E. F. Pearson), *723.
California:
——Co-Operative campaign now "California Electrical Bureau," 423, 1361.
——Electrical Bureau, 423, 1361.
——Feather River Power Company's hydro plant, 833, 887, 1279, 783.
——Great Western Power Co.
Golden Gate substation, *602.
Rates in San Francisco attacked, 991.
Sacramento-Merced line, 1413.
——Institute of Technology, 1,000,000-volt cascade transformer (Royal W. Sorensen) D, 1139.
——Lighting installations, unusual (A. L. Spring), *767, comment, (J. A. Reynolds), 1130.
——Lightning-arrester experiences and tests (D), 416.
——Los Angeles:
Bureau of Power & Light, new substations, 1414.
Colorado River proposition, 1095, 1227.
Commission control, wants to revoke, 732.
——Los Angeles Gas & Electric Corp.:
Office building, new, *583.
Seal Beach plant (J. G. Rollow and D. L. Galusha), *1116, *1123, 1277.
——Municipal plants, tax on, defeated, 836.
——Pacific Gas & Electric Co.
Advertising (J. Charles Jordan), *865.
Building, new, *790, *1231.
Discrimination, charged with, 1145.
Extension plans for 1925, p. 163.
Financial structure (Paul Willard Garrett), *331.
Hetch-Hetchy power, 1142, 1277, 1414.
Irrigation district and, to build plant, 683.
Load diversification, seeks (H. E. Sandoval), 466.
Pit River, No. 3, hydro-electric development, *340.
Public inspection of stations, invites, *359.
Rates in San Francisco attacked, 991.
Stanislaus River co-operative plan, 1145, editorial comment, 1301.
Substation, Vaca-Dixon, *356.
——Pictures of, *1179.
——Power shortage of 1924 (H. G. Butler), *193.
——Rural electrification, 1213.
——Rural power survey, *1088.
——Sacramento water filtration plant (H. H. Dunn), *503.
——San Francisco's Hetch Hetchy project, 62, 472, 577, 833, 1142, 1277, 1414.
——San Joaquin Light & Power Corp.:
Balch plant, *730.
Construction program, 1925, p. 992.
Cooling system for offices (J. S. Moulton), *155.
Rural electrical development (M. P. Lohse), *1033.
Western Power Corporation's program, *420.
——Southern, Edison Co.
Flashovers on 220-kv. transmission lines, avoiding (G. H. Stockbridge), *611.
Florence Lake tunnel, 419, *498, 526, editorial comment, 495.
Ground detectors, development and use of (E. R. Stauffacher), *770.
Growth (Paul Willard Garrett), *493.
Long Beach plant, accident at, 162.
Long Beach station (W. D. Campbell) D, 677, (D), 1037, *1384.
Man-month output, checking efficiency by (R. E. Cunningham), *620.
Meters yearly, testing 100,000 (W. R. Frampton, G. E. Decker and W. J. McCullough), *1067.
Power shortage, battling with a (R. H. Ballard), *87, correction (F. B. Lewis), 407.
Relay system for 220-kv. lines, balanced (E. R. Stauffacher and F. H. Mayer), *341, *400.
San Joaquin storage case, 419, *526, 1281.
Selling, plans intensive (H. C. Rice), 357.
Stock sales and publicity (Charles Heston Peirson), 1128.
Storeroom and shops, utility (W. R. Frampton, G. E. Decker and W. J. McCullough), *1021.
Transmission line, new 220-kv., 1227.
Water-right suit, 419, *526, 1281.
——Southern Sierras Power Company asks court for higher rates, 887.
——Stanford University high-voltage laboratory, 629.
——Stanislaus River co-operative plan, 1145.
——Utility legislation, 474, 679.
——Water and power act (editorial comment), 83.
——Water power makes (Frank A. Leach, Jr.), *1171.
——Western Power Corporation:
Feather River development, 783, 833, 887.
Program, *420.

*Indicates illustrated articles

Canada:
——Carillon project on Ottawa River, 369, 474, 679, 1095, 1145, 1281.
——Electrical Association's convention, 1360.
——Engineering Institute of, meeting of Montreal branch, 527.
——Hydro-electric developments during 1924, p. 117.
——Hydro-electricity and mining in, 838.
——Montreal (see Quebec).
——New Brunswick; Grand Falls plant, 892, 1040, 1095.
——New Brunswick to develop St. John River, 1362.
——Newsprint industry and hydro-electricity, 1146.
——Niagara diversion not exceeded, permissible, 1414.
——Niagara Falls, opposite methods at, 217.
——Norman Dam dispute, 114.
——Ontario:
Hydro-electric Municipal Electric Associations, 315.
Northern, power dispute, 1096.
——Ontario Hydro-Electric Power Commission:
Beck replies to Wyer pamphlet, 367.
Beck assails Carillon plan, 1281.
Gregory commission report, 1096.
Extension program, 632.
Moneys advanced to, public, 577.
Niagara Falls methods, 217.
Power exportation, consumers object to, 990.
St. Lawrence plans, 367.
——Power corporation of, 1144.
——Power exportation:
Carillon Falls, 679, 990, 1145.
Debated at Ottawa, 1095.
Editorial comments, 134, 701.
Embargo on, proposed (C. McKay), 615, 926.
Engineers discuss, 527.
1925-1926 permits, under, 581.
Ontario Hydro consumers object to, 990.
Shawinigan executive opposes, 1229.
Tax, 729, editorial comment, 701.
Tax, exporter to pay, 940.
Tax will cost Buffalo $100,000, export, 784.
Yearly basis policy, 1358.
——Power imports, December, 267.
——Quebec:
Carillon plant, 369, 474, 679, 990, 1095, 1145.
Montreal branch of Engineering Institute, meeting of, 527.
Montreal company again lowers its retail rates, 938.
Montreal Company plans 60,000-volt cables, 992.
Power exportation, 163, 267, *315, editorial comment, 235.
Railroad electrification proposed, 581.
——Saguenay project, 1231, 1414.
——St. Maurice district, development of, 1039.
——St. Lawrence River (see under Hydro-electric Developments).
Carbon black:
——Manufacturing by electrical process (J. J. Jakosky) D, 470.
——Off-peak energy for manufacture of, use of (editorial comment), 287.
Carrier-current:
——Power lines, on (D), 523.
——Squier again loses suit, 1091.
——Telegraph system for cables, voice frequency (Hamilton, Nyquist, Long and Phelps) D, 1037.
——Telephony on high-voltage power lines (W. V. Wolfe) D, 727.
——Underground communication, effects of metallic conductors on (J. J. Jakosky and D. H. Zellers), D, 1275.
Central stations. (See Generating stations and Hydroelectric plants):
Charts (see under Records).
Chilean State railway's electrification (David C. Hershberger) D, 1090.
Chimneys, selecting guys for steel (W. Wallace Christie) D, 212.
